

Wall Tie Tester Kit

- Mk2

The Hydrajaws Wall Tie Tester Kit is used for testing all types of remedial wall tie to meet the requirements of DD140. It is used with appropriate adaptor and mounts direct to tester.

The purpose of carrying out site tests on wall ties is either as part of a site survey to investigate the suitability of the base material for the use of a particular tie or during the installation of the ties to verify the quality of the installation.

The Hydrajaws Wall Tie Tester Kit Mk2 comes with M5 and M6 threaded rod adaptors.

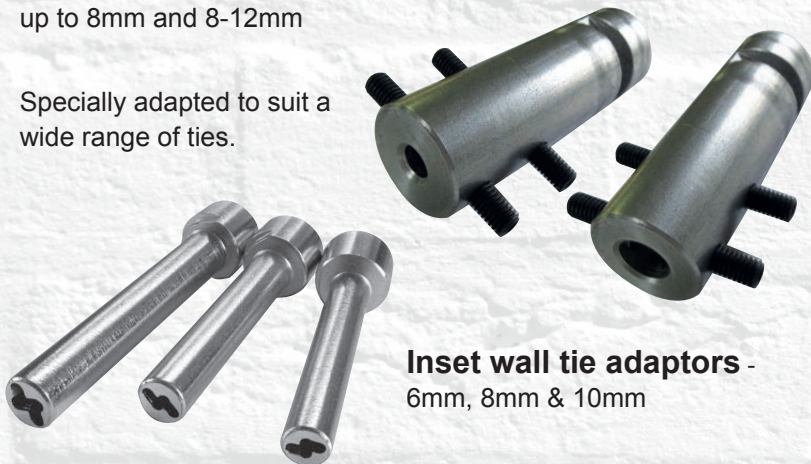

The kit is supplied in a foam filled carrying case with full operating instructions and a 1 year calibration certificate.

A selection of adaptors are available to suit a wide range of wall ties.

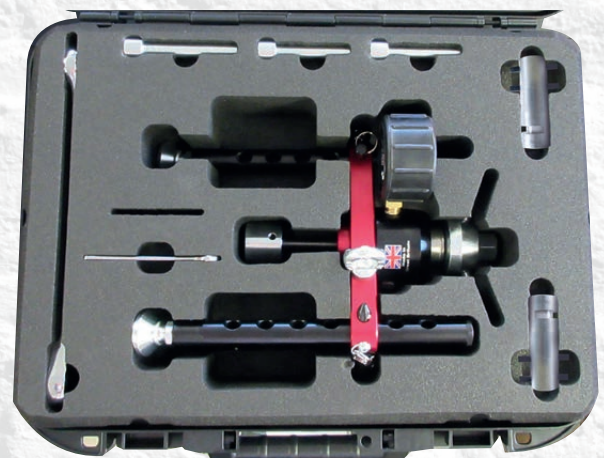

OPTIONAL EXTRAS

External wall tie adaptors -
up to 8mm and 8-12mm

Specially adapted to suit a wide range of ties.

Inset wall tie adaptors -
6mm, 8mm & 10mm

Kit shown with optional extras.
